Off For Advanced Lessons

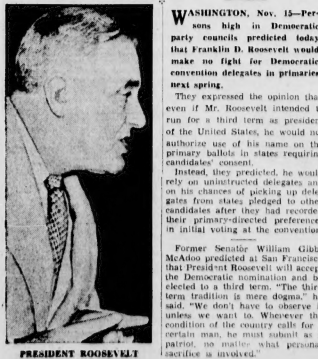

The Royal Canadian Corps of Signals had the honor of being the first unit of the C.A.S.T. to be transported as a unit by train when they were moved into camp for advanced training. On hand to bid the troops farewell were wives, mothers and sweethearts, who are shown here in a scene reminiscent of 1914.

Empire Training Of Air Pilots May Find Aid of T.C.A.

By GRANT DEXTER
Edmonton Bulletin Ottawa Bureau
OTTAWA, Nov. 15.—While Monday's announcement that Trans-Canada Airways facilities are to be used for the purposes of the Empire Air Training scheme has occasioned widespread alarm in quarters favorable to the continuation of civil aviation, there has been no change whatsoever in the government's policy to retain Trans-Canada in full operation.

There is nothing contemplated in this announcement, it was learned officially, this morning, which has not been agreed to for some time.
As previous dispatches indicated, the government is willing to allow the military to use the surplus facilities of the Trans-Canada Airways. There is really no surplus capacity at Stevenson field, Winnipeg, although originally Trans-Canada agreed to permit a small amount of preliminary training to be done there.
It is believed, however, that a

Nazi Military Leaders Oppose Advance Until Russia Position Clears

Havas Staff Writer
AMSTERDAM, Nov. 15.—Opposition of his general staff has so far prevented Adolf Hitler ordering an offensive either on the western front or in the air against Great Britain, according to reports today from German sources available in this city.

These sources said Hitler's political entourage was strong for immediate action as a reply to the "at-tention association" of Hitler at Munich.
On the other hand, the military chiefs of the German army have firmly held that no western offensive can be attempted so long as uncertainty continues over Russian intentions in northern and southeastern Europe.
It has been noted that certain sections of the German press have expressed guarded sympathy for the Nazis.
Nazi diplomacy has given way to the Soviets in the north-east, even going so far as to condemn the Russian ultimatum which Germany formerly approved in order to place Italy.

But resistance in the general staff of this Nazi self-statement is now openly being expressed, the reports said.
The Berlin correspondent of the New York Times reported that the German public was now being told that the German government's intention was to be clarified by next week.

This correspondent said that the German public was now being told that the German government's intention was to be clarified by next week.
The Berlin correspondent of the New York Times reported that the German public was now being told that the German government's intention was to be clarified by next week.

Blacksmiths, boiler makers, bricklayers, cabinet makers, carpenters, chemists, cooperages, die makers and die sinkers, draughtsmen, drill press operators, electricians, professional engineers, lathe hands, machinists not elsewhere specified, motor mechanics, moulders, pattern makers, plumbers and pipe fitters, punch press operators, riveters and chippers, sheet metal

German Airplane Patrols Are Active

PARIS, Nov. 15.—Reports from the front said today that many German patrols were active yesterday afternoon and east of the Saar river, northeast of Bitch, and north of the Vosges mountains.

Mother Of Twins First Woman To Report For Duty

By RICHARD D. MCHILLAN
British United Press Exclusive
Edmonton Bulletin Ottawa Bureau
OTTAWA, Nov. 15.—With the first payment due under the Prairie Farm Assistance Act in December, it is learned authoritatively that the outlay under the act will be much less than has been expected.

Several estimates are now current and none of them puts the total sum to be received by farmers at more than \$200,000,000.
There is great surprise that in the past few days the government has announced the second largest crop in history, there should be so great an area of failure.
The benefits of the act are restricted to a maximum of \$200 per acre and are paid on the basis of \$2.50 per acre on the farm's cultivated acreage.

Sixty per cent of the benefit is payable in December and the balance in March. An offsetting item in the one per cent tax imposed on the purchase of new land in the west. There is no information available here as to how much money this tax has brought in.

Zeller's Founder

WALTER P. ZELLER

president and founder of Zeller's Limited, whose Canadian organization joined downtown Edmonton's business leaders today. At 60 already one of Canada's leading merchants, he was born in 1880 in the same Ontario farm on which his grandfather settled in 1824. Educated in Ontario he is now a resident of Westmont, Quebec.

A past president of the Kiwanis Club of Montreal he is the 1940 governor of the Ontario-Quebec Maritime district of Kiwanis International. Under his leadership the Montreal Kiwanis Club last year won the gold award for service in a contest with all other Kiwanis Clubs in Canada and the United States. In addition to his activities with Kiwanis, he is a member of the Sunningdale Golf Club, the Seignior Club, Engineers' Club of Montreal, the A.P. and A.M. and the New Church (Swedenborgian).

International

By Canadian Press
HELSINGFORS, Finland's delegates return from Moscow without agreement on Russian territorial demands.
PRAGUE, Czech students dispersed after demonstration against German protection of German workers in the city.
LONDON, British and French agree on "close and continuous co-operation" in financial and economic matters.

PARIS—French report "reduced activity" on western front.
BERLIN—Surrender, which Germany has refused to accept, is being postponed, said to have reached port with prize vessel.

R.C.A.F. Planes Go Hundreds of Miles To Sea As Convoys

OTTAWA, Nov. 15.—Royal Canadian Air Force planes dived hundreds of miles out to sea over the Atlantic to watch for enemy raiders and escort merchant shipping safely to port, a national defence department spokesman revealed last night.

Working in close co-operation with the Royal Canadian Navy, fast flying biplane, twin-engine bombers and fast single-engine fighters were operating from bases as guarding the Atlantic coast, he said.
Flying over the sea and up the Pacific coast, the spokesman said.

HEAVY FROM ALOFT
"While destroyers plough through 'rivers' of sea and battle ships stand by to counter any attack on vulnerable harbor areas from hostile craft, other 'eyes' are aloft," the spokesman said. "The range of visibility is being increased by the use of searchlights and other devices."

Boy, 7, Is Ninth City Car Victim: Woman Expires

Alberta's climbing death toll chalked up five more fatalities Tuesday as three people lost their lives in a level crossing accident at Kavanagh Tuesday, a Camrose youth died after he was struck by a car while crossing 101 street in Edmonton, the ninth fatality here so far this year and a Daysland farmer was killed on a level crossing at Daysland, R.C.M.P. and city police Wednesday launched an even more vigorous drive to reduce the mounting death list reported to be the worst in the recent history of Edmonton and district. Safety appears at a low ebb.

Mrs. Carl Renes succumbed to injuries last night in Wetaskiwin hospital after her husband, Carl Renes, 29-year-old Brightview farmer, and his 9-month-old daughter had been instantly killed as a southbound passenger train crashed into their auto on a railroad crossing at Kavanagh station, west of Edmonton Tuesday afternoon.

Taken from the wreckage of the car Mrs. Renes was rushed to hospital in Wetaskiwin, but died at 4:30 p.m. about two hours after she had been admitted. Funeral will be held Sunday from the German Lutheran church at Pleasant Prairie, Rev. H. G. H. Klingbeil officiating.

VIEW OBSTRUCTED
Honor was crowning the railroad tracks from the west and it is believed that his view was obstructed by two grain elevators along the track and he did not see the train approaching.
The engine brought the heavy train to a quick stop, the car, a coach, was carried

20,000 Persons In Opening Attendance Hudson's Bay Store

An estimated 20,000 persons from Edmonton and district visited the magnificent new million dollar Hudson's Bay Company store Tuesday night to celebrate with the Company's management and staff its official opening.

Mayor John W. Fry, who was introduced by C. B. Macdonald, employee of the store, said the courage, foresight and vision of the company in building this splendid shopping centre for Edmonton and Northern Alberta demonstrated the Company's faith in the destiny of this city.

Long before the store's official door-opening, crowds had congregated before histories of magnificent stonework, and entrance to the Bay building partially to view the store.

Long before the store's official door-opening, crowds had congregated before histories of magnificent stonework, and entrance to the Bay building partially to view the store.

Edmonton Officer Receives First Battle Uniforms

Four hundred of the new battle dress uniforms have been received by the Edmonton Garrison from M.D. 13 headquarters in Calgary and will be issued to the Edmonton Regiment, it was reported on Tuesday. The new uniforms consist of a windbreaker-type shirt, slacks, 6-inch leggings, and the windbreaker-type hat. The uniforms are being issued to the Edmonton Regiment, it was reported on Tuesday.

WEDNESDAY, NOVEMBER 15, 1939.

Surplus Dollars

Despite special war-time measures to stabilize exchange, the Canadian dollar dropped to a discount of 13 1/2 cents in New York when \$500,000 worth of Dominion bonds and treasury notes were "voluntarily liquidated" by United States holders.

The value of money, as of any commodity, is affected by the demand. Evidently there are not enough people in the United States who owe money in Canada or want to buy Canadian goods; hence the figure stated by our dollar stock and its value depreciated. And, there is some reason to suspect, shrewd financiers turn the situation to their own account by creating an artificial "bear" market for our currency there on occasion. Maybe that was the reason these bonds were suddenly "liquidated"—which means thrown on the bargain counter.

It is fortunate for Canadian cities and provinces—as for the Dominion—that they had no large debt claims falling due in New York at this juncture—just such is the case. Any of them who have large payments to make there just now are in a fine position to be "taken for a ride." And if none of them are caught that is a matter of good luck, not good management, for some of them have been borrowing in New York as though our dollar had never slumped there to a 25 per cent discount a few years ago.

Signs of Easement

Great Britain and France have notified Tokyo that they will withdraw the bulk of their troops from North China, leaving only "token" contingents at such points as Tientsin, Peiping and Shanghai. The reason given is that the troops are needed in Europe.

As, according to London despatches, there are only about 1,000 British soldiers at these North China points, of whom 800 will be removed, the explanation hardly seems adequate. The Allies are not that hard up on men.

There is room for a surmise that Allied relations with Japan are less strained than they were a few months ago. The supposition is supported by the absence of recent "accidents" of the kind which figured prominently in the news from the Orient not so long since; though the blockade at Tientsin continues.

And, for whatever reason, Japan's official spokesmen have not been proclaiming lately that foreigners—meaning foreigners other than themselves—were to be run out of China and order and order interests there eliminated. The soft-pedalling coincided closely with Herr Hitler's desertion of the anti-communist alliance and some very plain talk by the United States ambassador at Tokyo.

Japan, these facts suggest, is in a more reasonable mood than it used to be.

No Time to Squabble

Mayor Fry struck the right note in his inaugural address to the city council when he said "We must co-operate to the fullest with the national authorities in these unusual times. It is more than twenty years since war conditions prevailed in Canada. The position of the city council—as of the private citizen—is in that respect out of ordinary. There must be a positive and not merely a large readiness to do whatever may make for the success of the all-important branch of the national policy.

In just what ways a city council will be able to further the war effort cannot be predicted. Time and the course of events will present the most meritorious, large or small. The vital thing at present is that the spirit of helpfulness be strong and sustained. That opportunities will appear in due course is one of the plain morals to be drawn from the former war-time experience.

One general consideration is obvious. The more efficiently civic business is carried on, and the less occasion is given for sharp cleavages between the citizens, the better will national unity be preserved. The Government of Ontario considers this so important that it has proposed to suspend municipal election contests until the war is ended.

The wisdom or the need of doing that may be doubted. But the idea behind the proposal is sound. The fewer local "rows" they get into, the better will Canadians be able to centre attention and effort on the real job we have in hand.

Canada Must Not Fail

The Red Cross is already committed to carry on work in Canada and for Canadian soldiers overseas which will require about \$3,000,000 during the coming year. The great bulk of this money must be spent in Canada; \$850,000 to continue the normal peace time services rendered by the organization in outposts hospitals, nursing stations and work in frontier districts; \$1,600,000 to supply wool and other materials to Red Cross branches throughout Canada with which to make articles for the comfort and welfare of our soldiers at home or abroad. The sum of \$250,000 is to be spent in building a hospital for Canadian soldiers, at Taplow, England.

During the former four years' war the Canadian Red Cross spent in its varied activities of mercy \$35,000,000. The sum being asked for is roughly a third of the average amount collected and spent during each of the former war years. The present program is thus based on a survey of actual prospective needs, not on precedent established in other conditions. It is in no sense an attempt to live up to a record just for the sake of doing so.

To make up the \$3,000,000 required, there will have to be voluntary contributions amounting to an average of about 30 cents for each man, woman and child in Canada. Broken down in that way, the sum is not large. Canadians spend as much per month on joy-rides in the summer season. And it should not be forgotten, should contributions happen to run beyond the figure stated, the balance will go to meet next year's needs or be passed along to help care for war victims in Britain and France, of whom there will be multitudes.

Everyone who is in position to give should do so generously and quickly. It must not be that there should be any difficulty raising in Canada so moderate a sum for such a cause.

Editorial Notes

Professor Neathy is leaving the University of Alberta at the end of the academic year to take the position of director of agriculture for the Northwest Grain Dealers' Association. One University is recognized as a good place to look when men of outstanding ability are wanted by governments, other educational institutions, or commercial concerns. That is a fine tribute to the quality of the men who are recruited to its teaching staff.

A German alarm dropped a note off the British coast saying he and his associates were sorry they made a mistake in reporting that the Ark Royal had been sunk, adding, "We have reported our mistake to the authorities. So blame Goebbels and not us—because the report is repeated daily over the Nazi radio. Men of his type cannot find much pleasure in having to take orders from chiefs of the Goebbels' band."

Fifty Years Ago

From the Files of the Edmonton Bulletin

Don Pedro, emperor of Brazil, has been deposed and a republic has been proclaimed. Five Indian leaders were found near Chelate a few days ago by prospectors. The indications are that the party were murdered in their sleep.

Moula Bey had been imprisoned and tried for murdering Christians in Crete and found guilty.

Forty Years Ago

The Boers occupied Syngberg in Northern Cape colony today. General Buller has gone to Natal. General Methuen has crossed the Orange river and is advancing to the relief of Kimberley. Reports say the garrison at Ladysmith is still in fighting shape.

Thirty Years Ago

London Lord Rosebery, speaking in the House of Lords, warned them that to reject the highest would be to play the game of the revolutionists. In a great debate his great speech stood out. The master of eloquent speech was in top form as he pleaded with the House of Lords to reject the highest would be to play the game of the revolutionists. In a great debate his great speech stood out. The master of eloquent speech was in top form as he pleaded with the House of Lords to reject the highest would be to play the game of the revolutionists.

Twenty Years Ago

The city council will float a bond issue of \$3,500,000 on the security of consolidated tax arrears. The public utilities board has decided that it has power to deal with the applications of the Northern Alberta Natural Gas Development Company for a higher scale of rates than that provided for in the franchise agreement with the city.

Ten Years Ago

Shanghai Nationalist Government troops are reported to have defeated the Kuomintang forces in Honan, with losses on each side roughly estimated at 10,000. Canton Fire was for a time threatened to wipe out the business section of the town was got under control after four business establishments had suffered damage. London Sir Ronald Lindsay will succeed Sir James Howard as British ambassador at Washington.

The Passing Show

By J. S. COWPER

These are difficult days in which to start a profitable business with little capital. Anyone who can point the way to perform the feat ranks as a public benefactor. The years ago a young couple in Orlando, Florida, went into the guinea-pig raising business with a stock of 35 guinea-pigs. Luckily the pernicious effects of the guinea-pig never reached the guinea-pig. Thus, with the assistance of Nature, the couple have made Mr. and Mrs. Davis possessors of the world's largest guinea-pig farm.

One recent order for 12,000 guinea-pigs was filled, still leaving 10,000 guinea-pigs working for their owners. To house the stock a special two-story air-conditioned building has been built. A staff of five men look after the rodents.

Where the purveyors of guinea-pigs are principally hospitals and medical laboratories. A few are sold for eating and some are sent to pet shops.

Guinea-pigs of cosmetics try out their lipstick, cold cream and powders upon guinea-pigs. The underside of the guinea-pig, when shaved, is extremely tender. If the lipstick, cold cream, powder or lotion fails to inflame the belly skin of the guinea-pig, then it will not inflame the delicate skin you love to touch.

As a youngster I had a brood of guinea-pigs. Not being initiated into the life of life and little thinking of making Nature a business partner like many another youngster, I let this opportunity for fortune pass me by.

Much more about the sport fans is spent on little Tony Cannonier, veteran of 166 stirring lightening ring battles, who was billed into a weaker era ago by some younger rival for fatigues. Tony Cannonier was rated as having "a great guy" when he had the ring stamina and the fortune that goes to the victor. Tony Cannonier was rated as having "a great guy" when he had the ring stamina and the fortune that goes to the victor.

Current Comment

He's Laughing at Us!

The week-long cold snap in Alberta is broken. They had it fourteen below in Edmonton one of those days, and twelve below in Calgary, and there was snow piled deep in drifts along the roads where they had been hauling the wheat, and they had to bring in the cattle from the stubble fields. And then the Chinook wind blew down the valleys of the Saskatchewan and the Red Deer and the Bow and October came again to Alberta.

They are hopeful now in Alberta that perhaps the warm wind may stay warm long enough to thaw them out properly, so that they can get more of the fall work done before the real freeze-up comes. Another freeze-up now, stop of that melting snow, would be bad business for them.

So this is just by way of saying that we ought here to receive such news of our neighbors beyond the mountains with a sudden sharp realization that we are luckier, nevertheless, than they, and that a drop of rain and a touch of mist in the morning are, comparatively, mighty easy to take. We can hear all about his October below-zero spells and say humbly and thankfully to ourselves that there, but for the grace of the sea and the mountains, might go we—Vancouver Province.

Canada's Growing Navy

Canadians should become more conscious. The Dominion now has a fleet of seven destroyers and four mine-sweepers. The most recent acquisition is the Assiniboia, named after one of the west's rivers, and it is the largest and fastest of the present destroyer flotilla. It was obtained from Great Britain and now is the leading ship of the Canadian navy.

Prarie people, far inland, are not usually thinking of naval matters, but to those who have experienced the sea there is something about the Assiniboia that breeds much interest. The prairie babies with the elements are not the same. One has only to read Joseph Conrad's *The Secret Agent* or the books published by the Admiralty to realize that something happens to a man's soul when he is victor over raging elements at sea. The soldier's courage is not his first major battle experiences something of the same. For the soldier it is a baptism of fire. For the sailor, cramped in close quarters between walls of steel, with a sharp prow cutting through mountains of raging water, it is also a rugged baptism. Men of the sea deserve all the credit they receive. They keep Empire lanes open and it is not an easy task—Regina Leader-Post.

Wool for Britain

The promptness with which the British Government, in collaboration with the Commonwealth, has brought into effect plans for the purchase during the war of the whole of the clip of the wool as the surplus of the primary commodities, is another example of the thorough preparations which have been made to meet the emergency of the war.

The outbreak of war in 1914 dislocated most commodity markets, merchants were unprepared to handle a wild scramble from all sides to obtain supplies.

Our trade with Germany had been important, and when it was abruptly cut off, there were shortages in many things and shortages in others. It was not until the 1918-19 wool season that the Imperial Government intervened directly to purchase all available wool.

This arrangement worked very successfully, under the direction of a central wool committee which left the wool trade to carry out most of its normal detailed functions, and the system is now being revived.

The existing marketing boards for various other primary products furnish a skilled and experienced staff to carry out the plan.

This organization of Australia's export trade will ensure that the wool trade will be carried out in a most efficient manner.

COST OF CHARACTER
 Joan Johnson, Tech's star athlete, is the only girl on the team who has been named to the All-American team. She is a member of the Tech basketball team, and she is a member of the Tech basketball team.

CHAPTER XXVIII
 From every direction, people streamed toward the great Tech stadium. It was a pilgrimage, with the huge, concrete, horseshoe-shaped arena as their goal.

Tommy Peters, leaning upon his megaphone, stood at the altar. "They'll hit 75,000 here today," he remarked to an assistant. Suddenly his eyes froze on a spot six or seven rows above him. There sat Rocco Petrone! Tommy dropped his megaphone. "Take over till I get back," he yelled, and dashed for the Tech dressing room.

He hurried toward the tunnel leading to the dressing room, suddenly stopped and ran back to Joan. He grasped her shoulders, his eyes sparkling. "I've had a do until later!" He kissed her hastily and dashed off again. Tommy howled and threw his arms around Joan. He shrieked in her ear but she barely noticed. Her eyes swam with happiness as she watched Dan disappear into the tunnel.

"He's snap out of it," he woke me!" Tommy shouted. "What's wrong?" "C'mon, tell me something or I'll lose my mind!" She told him as much as she could in a rush of words. It didn't occur to her that she ought to be resting now. This was no time for conversation. She'd call her father just as soon as she could get to a phone.

Tommy shrugged short. "Tell me there was a guy named Rocco?" "Rocco?" she echoed. "Yes, but how did you...?" "Well, here," he ordered. "Don't cross the field yet!"

Never had there been such a scene in the Tech dressing room. Tears actually flooded Bill Slocum's eyes as he murmured Dan in his arms. Joe Donchick danced around in his stocking feet and howled in native Shag. There all acted like a bunch of Co-manches, hurling helmets into the air in their delirium. It took Dan just one minute to convince Slocum he was strong enough to rise. Slocum clamped him on the back and shoved him toward his locker.

Efficient Effort to Attain War Aims Demanded of Empire

OTTAWA, Nov. 15.—Canada should demand a conference of the nations of the British Empire to be held in London, if possible, by next New Year's Day, to "state our aims and to take all measures to attain them."

WIRE SERVICE FOR BOOKIES IS CANCELED

Attorney For Annenberg Announces His Client Quitting Business

CHICAGO, Nov. 15.—District Attorney William J. Campbell announced Tuesday that he had canceled a wire service information that officials of the company had decided to discontinue the business.

Hammond Chaffetz of the law firm representing National Wire News said the system would close its wires to betting rooms today. Campbell said the wire service information, told him by one of the National Wire Service, Inc., have decided to "definitely and forever quit the business of providing race information over wires to gamblers and bookies."

Campbell has stated that his clients will voluntarily cancel contracts with the National Wire Service, Inc. Campbell said, "In addition, he has declared his clients expressed a wish to avoid the government in preventing the dissemination by anyone of race information for illegal purposes."

"Disruption of National Wire Service, Inc., will affect not only every state in the union but the Dominion of Canada and Cuba."

LORD LOTHIAN SAYS LEADERS ARE BIG NEED

Men To Give Spirit To Democracy Said Necessary

NEW YORK, Nov. 15.—Education "the to educate those who are to discharge the ever more arduous duty of giving that leadership to democracy without which it cannot survive," the Marquis of Lothian, British ambassador in the United States, declared last night at a dinner celebrating the golden jubilee of Harvard college.

"The real menace to democracy today is totalitarianism," Lord Lothian asserted, "the conviction that if man is to get peace and order and prosperity, he must surrender a material sense, he must surrender his right of judgment to the state, he must to the state which has captured the state... There is no doubt totalitarianism is a great evil, especially to youth. That is one side of the totalitarian menace."

"The other is the relative lack of democracy to solve three vital problems for themselves: unemployment and the economic disorder that unemployment brings; the mal-distribution of wealth; and war."

Speaking of the British Commonwealth of Nations, he said, "There is no doubt that we have made many mistakes and have sometimes abandoned the principle of giving too little and taking too much. But the British empire has made much more progress in individual liberty and property of its subjects than any other nation."

He spoke of the increasing part women have taken in the affairs of his nation. "I remember Mr. Lloyd George being asked once who he thought won the last war. He said 'Cresting no nation won anything. The only people who won were the women who won their place in the world by the way of the women today have won their full rights as citizens?'"

CHILEAN POWDER PLANT SUFFERS BLAST TUESDAY

ANTOFAGASTA, Chile, Nov. 15.—An explosion Tuesday destroyed part of the powder plant of Compania Sudamericana Explosivos and injuries were reported. Damage was estimated at more than 1,000,000 pesos (about \$200,000).

Moody's Manual of Investments lists E. J. Du Pont de Nemours and Company as owner of 42 per cent of the company's stock.

University Meet Scheduled In East On December 27-31

MONTREAL, Nov. 15.—Some 200 students from about 35 Canadian colleges and universities will meet Dec. 27-31 at MacDonald College in Ste. Anne de Bellevue. It was announced Tuesday. Delegates to the conference, under auspices of the third annual conference of Canadian Universities, will be chosen for their contributions to university life.

Censor Freezes Reno Kneeses

OTTAWA, Nov. 15.—Satisfaction is expressed by Mackenzie King and Lord Rutherford that the censoring of the British air plan is approved.

PROGRESS ON SHIPS MAY BE TURNED DOWN

Roosevelt Indicates U.S. Not Likely To Permit Change In Registry

WASHINGTON, Nov. 15.—President Roosevelt indicated Tuesday that the United States might not permit a change in registry for ships to be transferred to the United States.

Such action, he told a press conference, would violate the spirit of the neutrality law, in part, and he added another reason for withholding his approval.

This was he said, whether United States ships or not, and he added another reason for withholding his approval.

Way Wind Blowing From his remarks and the fact that the maritime commission refused yesterday to let the bankrupt Pacific Steamship Corporation transfer four ships to Panama, he added significantly, it should be possible to see which way the wind was blowing.

Meanwhile, Mr. Roosevelt said, the administration is trying to find ways for ships ruled out of the North Atlantic trade, and for the U.S. Navy.

In connection with the shipping question, a reporter asked whether the U.S. Navy, other countries from whose ports American ships have been barred, would be asked to let the United States government.

REGRET EXPRESSED The president replied that unofficial expressions of regret have been received from individuals in all the neutral nations, including Belgium, Holland, Denmark, Sweden and the countries of the Baltic. He had the profoundest sympathy for them, he continued, but could not let that affect the determination of a question of national security.

Trans-Canada Air Lines Make Great Strides In 1939 Expansion Program

TWO ARRESTED FOR STEALING SUM OF \$1,700

BUCHANAN, Sask., Nov. 15.—Alex. Buchanan, Buchanan, and Peter Goggin, Benito, Manitoba, were arrested Tuesday and charged with stealing \$1,700 from a grain elevator here Saturday.

Their arrest followed a 48-hour manhunt by two Royal Canadian Mounted Police, Ontario, S. B. MacDonald and Detective Michael Nolin of Yorkton, who were assisted by a dog named Alaskan and bloodhound brought from Ottawa by the police.

Offgoff who was found in a farm of about 400 acres, with more than \$400 in his possession, admitted that he had stolen the money while sitting at Kamisk, P.Q. where he was investigating the alleged theft of a car.

PETERSON IS ACQUITTED ON ARSON CHARGE

HUMBOLDT, Sask., Nov. 15.—Frederick H. Peterson was acquitted by a jury's verdict Tuesday of charges of conspiracy and arson in the incendiary destruction of 10 Saskatchewan grain elevators in 1937 and 1938.

The jury brought in its verdict after about four hours' deliberation which came at the end of a hearing which had lasted for more than a week.

Before the first jury had reached its verdict, Peterson faced a jury which will hear 46 charges of theft, false pretences and forgery of 10 alleged acts of conspiracy in connection with the destruction of elevators for the Saskatchewan Wheat Pool. Hearing of these charges is expected to take another week.

500 Jew Refugees Held At Tel Aviv

JERUSALEM, Nov. 15.—Five hundred Jewish refugees, mostly from Poland and the first step to arrival of the outbreak of war, landed here Tuesday. They are being held in custody by British officials who said their entry was illegal.

son Lake and other landing fields have been planned.

In cooperation with the Northwest Territories and Yukon branch of the mines and resources department, numerous improvements and developments have been planned out in respect to air bases in the Yukon and in the Mackenzie River valley to Alaska.

Since the opening of the new railway service linking Montreal, Quebec and Toronto with a schedule apart from the transcontinental flight, it has been decided to erect a new radio station at Stirling, Ont. 20 miles north of Toronto, so that the planes could fly direct from Ottawa to the north instead of following the old route through Killarney and Muskoka. A time saving of 30 minutes in flight is anticipated.

Surveys In Alberta Airports surveys have been made at Vernon, Ashcroft and Quesnel in the B.C. interior, and similar surveys were carried out at Peace River and Grande Prairie in northern Alberta.

The air route between Edmonton, Dawson and Whitehorse via Fort St. John has been surveyed and a new airport was built at Fort St. John. Interim landing fields are under construction at Fort Nelson and Watrous.

Catholic Church Burns In Ontario

BANNOCKBURN, Ont., Nov. 15.—Fire costing damage of \$5,000, destroyed the Lady of Mercy Roman Catholic church here Tuesday night. The church was burned down by a fire which started in the kitchen. Practically all valuable records and church ornaments were destroyed.

University Meet Scheduled In East On December 27-31

MONTREAL, Nov. 15.—Some 200 students from about 35 Canadian colleges and universities will meet Dec. 27-31 at MacDonald College in Ste. Anne de Bellevue. It was announced Tuesday. Superior Voluntary Effort Will Win Over Driven Nazi Forces

LONDON, Nov. 15.—Time is on the side of the Allies, whose people will win the war by making a voluntary effort superior to that of the dictator-ridden Nazis, said Winston Churchill today.

"Our enemy is formidable," he said, "but he is making frantic preparations. Time will be on our side if we use it. We must make every effort superior to that imposed by force on the German people. Our enemy is convinced that the democratic peoples will not submit to such great sacrifices as he themselves. In that they are mistaken."

"After a few hours spent in this country I am impressed by the unanimous determination of the British people to conquer and to obtain at last a peace which will really be a peace."

He reminded his audience that five years he had urged creation of a powerful army because "I have never believed that the Nazi leaders would have bled their people white for any other purpose than to dominate Europe by terrorism first and if necessary by war."

"Our enemy is formidable," he said, "but he is making frantic preparations. Time will be on our side if we use it. We must make every effort superior to that imposed by force on the German people. Our enemy is convinced that the democratic peoples will not submit to such great sacrifices as he themselves. In that they are mistaken."

JOCKEY HELD FOR HOAX IN O'HARE CASE

Sought To Link Himself With Gangster Killing Of Rich Turfman

LOS ANGELES, Nov. 15.—Albion Stoddard, 31, was held by police last night for investigation of what they said was a hoax which sought to link him with the slaying of Edward J. O'Hare, wealthy Chicago turfman slain in a gun battle.

Detective Lieutenant L. Roy Sanderson said Stoddard, former jockey, wrote himself a letter, purporting to come from a Chicago man, asking that Stoddard be brought to Chicago to meet with O'Hare and that he had written who might desire for him the fall was O'Hare's.

Stoddard telephoned police from a drug store and said he had been stabbed by two men who had him into an alley. The letter was found on him by police.

Sanderson said the youth's aunt, Mrs. Dewey Imboden, reported that Stoddard's mother had written her that they had sent him a self-addressed letter asking her to tell him. Imboden also told the officer she believed Stoddard had stolen himself on that night, and knew a "big shot" in the event of friends to whom he had been introduced at world associations, and at the same time to win sympathy with a girl friend, who he had just met.

FISHERMEN TO GET PENSIONS FOR WAR HURTS

OTTAWA, Nov. 15.—Pensions to be paid in the case of salt water fishermen, who in pursuance of their calling suffer disability or death as result of enemy war action, will be increased by the government, it was announced today.

The pensions will be paid under an order in council passed under authority of the War Measures Act and also will be paid to or in respect to wives, widows and orphan children of fishermen disabled or killed. Under other orders in council the department announced that night.

Go Lightly On Eye Makeup For Evening

BLER PRINCESS LINES
To Make You Slim and Young

3414
3125
70-45

By ALICIA HART
Gone are the days when getting ready for a formal party meant applying powder with a tawny hand plastering on layers of eye make-up and gaudy lipstick. Now the ready for the ball, she looks like a modern girl and not like a painted doll.

According to makeup experts of both New York and Hollywood, the latest never should be based with makeup. Apply it to the eyes with a small, freshly clean brush and color only a few hairs at a time. It is seldom necessary to use the lower lashes, and it is important to remove brush upward on the lower ones.

MATCH SHADOW TO COLOR OF EYES

The head of the makeup department in a famous motion picture studio says that it is best to choose eye shadow to match the color of the eyes. Put the shadow on the lid, starting near nose and blending outward. The shadow can be a bit deeper nearest the row of lashes at night and becoming lighter toward the outer corner. The final effect must be as subtle, however, with no harsh lines or smudges.

It is a mistake to pluck eyebrows. Remove straggling hairs that grow down on lids or across nose between brows, of course, but don't remove hairs that grow within the natural arch of the eyebrows.

And don't forget to brush eyebrows each time after applying makeup. This gives them a natural appearance but without unpleasantly with the rest of your perfect grooming.

Brush brows with a brush or a stick of wood. Before brushing them with a stick of wood, first brush with a brush or a stick of wood.

As a background for your favorite necklace of gold, a dark green black or crushed black silk is ideal. This is a practical dress to wear as a smart one to wear the fall, and is becoming to all ages. A neat little pillow hat with a brood is just about the smartest thing you could wear with this dress.

Size No. 3414 is designed for sizes 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, 86, 88, 90, 92, 94, 96, 98, 100.

Write 15 cents in coin for pattern. Send 15 cents in coin for pattern. Address and State Number. Be sure to state size you want.

Address order to The Edmonton Bulletin, Pattern Department, 820-1001, Alberta.

Over one hundred brand new fall styles... plus many new fashion lines are included in our Fall Fashion Book. Just off the press. Send for your copy now! The price is just 15 cents.

Reduce Without Starving

Mr. Pudge and his little young daughter! Alas! Not Mr. Pudge and his little young daughter! Follow them to lunch and you'll understand the difference in their appetites.

After shopping Mr. Pudge thinks the needs pork and bean (60¢) and a serving of lemon meringue pie (30¢) for a medium meal.

But Mr. Slender chooses a pepper stuffed with ham and beef (25¢), corn (25¢) and a medium meal (10¢) for a medium meal.

Mr. Slender, you see, knows her calorie count. It was with just such low-calorie foods she recently banished bulge which threatened to make her as fat as Mr. Pudge.

Would you starve on your slim diet? No! At all! Your diet is planned in advance. It contains plenty of protective foods—eggs, milk, meat. It leaves no room for fat and sugar, and, of course, no room for the fat and sugar of the plain, ponderous meal.

Follow the satisfying low-calorie menu in our 32-page booklet—and save 2 pounds a week. Give away free, three-day liquid diet to start reducing. Has weight-building program.

Send 15¢ in coin for your copy of "The New Way to a Youthful Figure" to Home Service, The Edmonton Bulletin, Edmonton, Alberta. Be sure to give the plainly your name, address, and the name of your booklet.

It has been reported that the use of diet pills in place of a diet is not a new thing in a few years. A car was prepared for demonstration purposes recently with a plate of food that permitted the occurrence to have full validity.

Volunteers Aid Red Cross Work

Working under wartime stress, the Canadian Red Cross has been strengthened by countless men and women who have volunteered to take on extra jobs that call for long hours of work every day.

Above a group of executives are shown in the Red Cross headquarters in Toronto. From left to right: Mrs. W. E. Bernhart, vice-chairman of the Toronto work; Mrs. Robert Marshall, of the local Council of Women; Mrs. H. D. Plummer, vice-chairman of war activities; and Mrs. Wallace R. Campbell, chairman of war work.

Dorothy Dix Says:

It used to be that when we particularly wished to recommend a book or girl to their prospective bride or bridegroom we would say: "John will make you such a good husband. It is such a lovely girl and brother." On "You are certainly lucky, John, in getting Mary for a wife. She is just the material for her family."

But that was before we had ever heard of family complexes and how they really work. Now we know that a man and his mother, sister and brother can be the most dangerous rack in the whole street matrimonial case.

Now when we hear that a youth or maiden is about to marry a model son or daughter we cry to them: Don't save yourself while you have yet time. For if you marry one of these ever-fond sons or daughters you are letting yourself in for a life of martyrdom.

As long as you live you will always play second fiddle to your husband or wife's family. They will always be first in his or her heart. Their comfort and pleasure and convenience will always be considered before yours.

These men and women with the family complex would deny themselves everything to give to their families, and they will stand by their wives and husbands and feel the same way.

A young man who says contrary to this notion of the devoted daughter asked: "What is a fellow to do when in order to get the girl he loves he must marry the entire family? When a young woman is so wrapped up in her family that she will do anything for you, can it be that she doesn't love you? At my fiancée seems to be for it. I am sure I can't get her to hear anything but Mamma and giving in to me to wait for her to write Mamma and tell her of my love. Do you think she is a fool? She is not. She is a girl who is as much as she can love anybody but her own family. But if you marry her, you will never see her again. She will be the little errand boy."

DOROTHY DIX

Getting involved in a time of rapid change in 1939. It was called with discharging 300 bullets 2 minutes and could fire more than 6000 rounds without jamming or slowing.

BOND CHARGED WITH FACTS

**WITH DOCTOR'S
BILL FOR GIRL**

**Lady Friend Of Fuehrer
Fritz Kuhn Gets Bill Of
\$60 Settled**

NEW YORK, Apr. 14.—Fritz Kuhn, who acknowledged paying

Testifying for the state in Kuhn's trial on charges of theft of \$3444 from the Band, 17, Francis La Sierra described a professional call made upon Mrs. Cowgell Sept. 2, 1934.

Through counsel, Kuhn conceded Monday he used some \$100 of the Hunda's money in moving the furniture of Mrs. Blanche Kuhn between Los Angeles, New

The defense had requested that the jury be sequestered, but the judge refused. He said the jury would be sequestered if the defense could show that the jury would be biased. The defense failed to do so.

CANINES WILL BE USED AGAIN ON WEST FRONT

One day is told of an African captured during a raid by a Canadian unit early in 1915. This day they called him "Tommy" - replete with the Canadians until one of hostilities.

"Tommy" always went "over the top" with the men and was wounded three times.

Assault Greeks offered sacrifices to appeasing bad clouds, and even to this day, in many parts of the world, various charms are used to ward off hailstorms.

WIDER MARKET FOR CANADIAN CHEESE SEEN

By James Richardson & Sons

OTTAWA, Nov. 15.—Demand in the British Isles for food in a highly concentrated form will create a greater market for Canadian cheese, in the belief of agricultural department dairy experts.

By James Richardson & Sons

ment. There is practically no cheese available in the west as eastern exporters also have little to export actually at hand.

Normally, cheese making ends for the season late in November but there have been predictions cheese factories will continue through the winter because of improved market prospects. On the other hand, it is pointed out, many farmers divert their skim milk to winter feeding of calves for the spring market and so have no supplies for the cheese factory.

CHEESE SHIPPED TO LETHBRIDGE FOR FARMERS

EASTERNERS SENT TO JAIL FOR 3 FRAUDS

Alberta Citizens Lose \$1,400 To Montreal Photo Salesman

A Montreal salesman by the name of Joseph A. Beauchamp, who is charged with twenty-one charges of obtaining money by false pretences.

Crown prosecutor J. W. McLaughlin, K.C., speaking to a jury at the court here were twenty-one charges against Beauchamp, which would be dropped following the disposition of this case. The accused entered a plea of guilty to three charges.

Beauchamp and his assistants travelled through the province during the past year, obtaining a commission by selling a competition idea to the participants were to compete for prizes ranging as high as \$500 and as low as one dollar. To enter this competition they had to send a photo and pay \$3.00 for the entrance fee.

If this photo was selected to win the competition it was to be given a commission by the company in Montreal. It was found that Beauchamp was a very good salesman, and that he was very successful in obtaining money from the participants.

For several years this applicant had been a hardworking farmer and had retired his job by his steady application to his farming pursuits.

The trial returned last week to the court, and the jury found the accused guilty of the three charges. The jury also found that the accused was a very good salesman, and that he was very successful in obtaining money from the participants.

In another case where the accused was charged with obtaining money by false pretences, the jury found the accused guilty of the charges. The jury also found that the accused was a very good salesman, and that he was very successful in obtaining money from the participants.

The jury also found that the accused was a very good salesman, and that he was very successful in obtaining money from the participants. The jury also found that the accused was a very good salesman, and that he was very successful in obtaining money from the participants.

The jury also found that the accused was a very good salesman, and that he was very successful in obtaining money from the participants. The jury also found that the accused was a very good salesman, and that he was very successful in obtaining money from the participants.

The jury also found that the accused was a very good salesman, and that he was very successful in obtaining money from the participants. The jury also found that the accused was a very good salesman, and that he was very successful in obtaining money from the participants.

The jury also found that the accused was a very good salesman, and that he was very successful in obtaining money from the participants. The jury also found that the accused was a very good salesman, and that he was very successful in obtaining money from the participants.

The jury also found that the accused was a very good salesman, and that he was very successful in obtaining money from the participants. The jury also found that the accused was a very good salesman, and that he was very successful in obtaining money from the participants.

The jury also found that the accused was a very good salesman, and that he was very successful in obtaining money from the participants. The jury also found that the accused was a very good salesman, and that he was very successful in obtaining money from the participants.

The jury also found that the accused was a very good salesman, and that he was very successful in obtaining money from the participants. The jury also found that the accused was a very good salesman, and that he was very successful in obtaining money from the participants.

The jury also found that the accused was a very good salesman, and that he was very successful in obtaining money from the participants. The jury also found that the accused was a very good salesman, and that he was very successful in obtaining money from the participants.

The jury also found that the accused was a very good salesman, and that he was very successful in obtaining money from the participants. The jury also found that the accused was a very good salesman, and that he was very successful in obtaining money from the participants.

Reds Plot Against U.S.

Freedom To Worship God Vital Issue, Bishop Burnett Declares

Vital issue at stake in the present European conflict is a final and permanent peace, with the freedom of worship for all the world, and the security to the people of the world.

His Excellency Bishop J. A. Burnett, of the Diocese of Edmonton, addressed the congregation of All Saints' cathedral on Sunday.

The sermon followed in part: "On earth peace, good will to men."

Mayor Fry To Attend Formal Opening Zeller's Store

MODERN STORE REAL ADDITION TO EDMONTON

J. O. Van Alstine, Manager, Pleased at Prospects Here

The shopping public has been looking forward with considerable anticipation to the opening of Zeller's new store. Located in the Tegner building, it will add greatly to the prestige of the city's shopping section. Only a few finishing touches remain to be done before the store opens tomorrow, says J. O. Van Alstine, store manager.

Among the outstanding divisions in the store are fashion sections devoted to dresses, coats, millinery, shoes and accessories. Convenient fitting rooms have been provided for shoppers of this type of merchandise.

Especially appealing are divisions devoted to everyday household needs. These feature colorful arrays of crockery, glassware, lamps and smallwares. Men's and boys' wear holds a prominent place, and children's apparel in great variety is tastefully arranged.

Mr. Van Alstine, who recently arrived here from Ontario, stated that he was looking forward with pleasure to not only efficiently serving the shopping public as store manager of Zeller's in Edmonton, but to becoming an active participant in the civic and community life of this city.

Newly Designed Candy Counters Are Attractive

One of the chief features of the new Zeller's store will be their candy and biscuit section. At this is one of the departments which has become the pride of Zeller's stores across the Dominion special efforts are being made to keep the department in the Edmonton store in line with the high standard maintained in other cities.

Situated on the north side of the store special candy display counter which keep the delicacies fresh behind glass partitions which keep all edibles hygienically clean. A large range of candies of every description are kept in stock at all times and only fresh high grade confections are offered to the public.

Manager

J. O. VAN ALSTINE

ZELLER'S PLANS MANY COMFORTS FOR EMPLOYEES

Convinced that the success of any enterprise depends largely on the spirit and morale of the personnel, Zeller's have made elaborate provision for the comfort and well-being of the staff of their new Edmonton store.

Specially selected in the first place, the employees have been given special courses in salesmanship, courtesy, meeting the public and dealing with customers, in order that they may give efficient service in a pleasing manner. Large comfortable and well-equipped dressing and rest rooms have been provided for the staff and every effort has been made to make their work as pleasant and interesting as possible. Regular employees of the company will receive Christmas bonuses and a holiday schedule is now being arranged for next summer, in addition to the regular store holidays.

The policy of the company calls for the selection of outstanding clerks for special training and promotions are rapid in the case of those employees who show special technical or executive ability.

STORE'S PLANS ARE EXPLAINED BY H. A. HILLS

Edmonton Store Is Most Modern, Vice-President Declares

"Tomorrow will bring realization to one of our most cherished ambitions," stated Herbert A. Hills, vice-president and general manager of Zeller's Limited, who is in Edmonton for the opening of the company's new store. He has for a long time desired to be represented in this province and we feel particularly fortunate that Edmonton should provide the opportunity.

With particular reference to the general presentation of Zeller's to the shopping public of Edmonton, Mr. Hills emphasized certain points which might be of public interest. For instance, while the Edmonton store bids fair to be the most modern, and is certainly the newest, in a group of 22 Zeller's stores spread throughout the Dominion, the chief object in Edmonton is to cater to local preferences in merchandising rather than to make this fine new store conform to a set pattern.

CUSTOMER FIRST

In all ways this new store must fit in with Edmonton, share in its civic life and blend itself in with the tastes, ambitions and problems of Edmonton's citizens, Mr. Hills said.

Furthermore, in every personal transaction with its patrons, the company clearly understands that customer satisfaction comes first. To assist in honestly maintaining Zeller's slogan, "Retailers in Their Country," every modern and efficient method is used in the operation of the business to eliminate unnecessary waste or extravagance. This, coupled with the use of a cash basis only, is one of the biggest factors in a constant endeavor to supply the demand for popular merchandise prices regarded as being preferred by the thrifty.

Customer satisfaction is not always achieved by a good value but must be accompanied by thoughtful and courteous service with the privilege of returning goods which might prove unsuitable when examined at home. To this end Zeller's have chosen a staff of local Edmonton young women, whose personality and aptitude for selling have made a deep impression upon visiting Zeller's executives and are again emphasizing their policy of each sale being backed by a money refund guarantee.

Mr. Hills was very anxious to point out that tomorrow's opening

Executive

HERBERT A. HILLS

Vice-president, operating manager and director of Zeller's Limited and Zeller's (Alberta) Limited, who is in the city to attend the formal opening of the store. Wednesday evening and complete other arrangements in connection with the entry of Zeller's Limited into the merchandising business in northern Alberta.

He would mention many things which are especially prior to the opening. It would be unfair to attempt to convey the idea that certain special items were typical Zeller's values.

Certain items have been taken from the regular assortment and deliberately placed lower and in other cases, items have been specially purchased in cooperation with the manufacturers, all of which has been done to commemorate a great event for Zeller's in a manner which it is hoped will benefit Edmonton shoppers.

Finally, Mr. Hills remarked that Zeller's placed its integrity more than anything else. The simple truth, whether it be by the written or spoken word, in all its relationship with the public, its own employees and its suppliers and Zeller's merchandise is the greatest medium through which Zeller's can become an asset to the community. "We shall, very hard," said Mr. Hills.

Contractors

General contractor in charge of the work was the Poole Construction Company, Ltd. Plumbing and electric work was done by H. Kelly and Company, Ltd. and W. H. Wickes and Co. Limited was supplied by the W. H. Clarke Lumber Company, Ltd. Trazzato and work by the Empire Tile and Marble Company, Ltd. Electrical work was done by S. E. Noble Electrical Contractor, G. H. MacDonald and H. A. Magoon, architects.

Beauty Is Feature Of Furnishings In City's Newest Shop

\$100,000 Spent in Modernization of Building to House New Concern in Heart of Down-town Edmonton

GOLD-TINTED mirrors, beautifully designed natural walnut and ebony display counters, scientific lighting, thermostatically controlled heating, trained personnel—these are a few of the high-lights which will greet the eyes of those who attend the formal opening of the new Zeller's (Alberta) Limited Store in the ground floor of the Tegner building, Wednesday evening.

Supervises

Skilled craftsmen who have labored on the main floor of the Tegner building for the past 18 weeks incorporating approximately \$100,000 worth of improvements into the premises, and installing an additional \$50,000 worth of artistry and scientifically designed fixtures have left behind them one of the most pleasing modern stores in western Canada and one of the finest in the 32 which make up the Zeller's chain.

Large amber-tinted mirrors catch the light which illuminates the store's accessories, and special counters, special full-view display cabinets lighted with fluorescent lamps, and modern display cases, have no trouble inspecting and showing articles that attract the buyer. Thermostatically-controlled ventilating and heating units maintain a beautiful, hygienic temperature and atmosphere in the big, roomy store, in which there are more than 200 mirrors—many of them full length.

WILL RANGE, CARBIDE

A full range of merchandise from candy to women's overcoats, including notions, hosiery, silkwear, women's accessories, drapery and lace goods, ladies' ready-to-wear and millinery, men's and boys' haberdashery, ladies' shoes, toys and novelties will be carried in the store.

In the many display counters and on the sleek shelves will be found bargains that will find the approval of even the most careful shoppers and quality that will intrigue and please even the most discriminating. The opening sale will be featured by many popular priced articles at special introductory prices.

In keeping with the modern motif of the store and the standard of beauty set by the walnut paneling and counters, more than 4,000 pieces of shatter-proof, semi-transparent glass are used on the counters and display shelves, special chrome-plated display stands, and artistic decorations complete the fixtures which feature this modern shopping centre. Main section of the store has hardwood floors, while the ladies'

and children's sections are carpeted with beautiful, comfortable, easy-to-maintain carpeting. The store will be decorated by 150 specialists brought in from the store's training centre in the east with the exception of key persons and technicians brought in from the company's other stores.

For the past three weeks clerks who will be meeting the public and performing specialized services in the new store have been attending training classes under the direction of Miss V. Kershner, of the Mount Allison University, who is a graduate from the University of Western Ontario in London.

Take the materials used in the

renovation of the store and construction of the furnishings all the merchandise included by the store has been brought in Canada where ever possible.

All sales departments of the store are situated on the main floor. This means that shoppers can inspect every department of the store without the necessity of climbing stairs or visiting departments on other floors. At the same time it leaves the entire basement free to provide space for stock-rooms, service and technical departments and storage space.

These spacious storage facilities enable the company to keep a complete and plentiful reserve stock on hand without cluttering up display counter and service areas on the main floor.

VALUABLE ADDITION

The side rooms and exceptional quality of the merchandise offered for sale by Zeller's will make the store a profitable and valuable addition to Edmonton's business section.

FLOOR LAYOUT SUPERVISED BY STORE EXPERT

Bruce M. Russell Says
Customer's Comfort
Important Detail

Bruce M. Russell, stores superintendent for Zeller's, has been spending considerable time in the city, engaged in supervising the placing of counters and merchandise in the new store which the company will open shortly in the Tegner building.

"The comfort of shoppers is important," is Mr. Russell's opinion. "Therefore, one of the first aims of our organization is to plan for greatest shopping conveniences, in order that customers may handle merchandise and complete purchases with as little waste effort as possible."

LAYOUT PLANNED

"To achieve this object, the relationship of various types of merchandise to each other has been carefully considered and as a result related items have been assembled and displayed on adjoining counters wherever this has been practicable. This treatment enables shoppers to make their selections in concentrated areas of floor space, at a saving of both time and energy."

"In our efforts to make it thoroughly enjoyable to shop at Zeller's, we have endeavored in every detail to consider the comfort of the shopping public."

RUSSELL IMPRESSED

Mr. Russell has, during his few weeks' stay in this city, been greatly impressed with Edmonton's splendid and increasing scope for successful business and is looking forward to periodical return visits.

Work Provided

The renovation program made necessary by the decision of Zeller's (Alberta) Limited to open their new store in Edmonton brought work to more than 70 Edmonton tradesmen and tradeswomen for 10 busy weeks since work began early in September and put approximately \$100,000 into circulation here.

C.C.F. LEADER STATES PARTY VIEWS ON WAR

Maintain Right to Criticize, Declares Winch In B.C. House

VICTORIA, Nov. 15.—Co-operative Commonwealth Federation member, "reiterate our duty to make every effort for a successful conclusion of the war, but maintain our right to criticize," the group's British Columbia leader said in the legislature Tuesday.

WAR FOR DEMOCRACY

"We are opposed to Hitler and all that stands for," continued Winch, "and we accept the war as a battle for freedom, liberty and democracy and express the hope that out of this conflict will emerge some form of cooperation that will make future wars impossible."

"Because we had the courage to speak we have been open to attacks from the press and on the floor of the house. We would have come here wearing eloquent in patriotic utterances."

"That was the easy way to evade responsibilities. But we want the hard word from other speakers here."

In a question period, Winch asked the government to support the C.C.F. in its fight against the war, and to support the C.C.F. in its fight against the war.

FAVORS ECONOMIC HELP

"We have pointed out mistakes of the past and now admit that they have been repeated," Winch said.

"It is the responsibility of the C.C.F. to point out these mistakes and to suggest ways to avoid them."

"We have pointed out mistakes of the past and now admit that they have been repeated," Winch said.

"It is the responsibility of the C.C.F. to point out these mistakes and to suggest ways to avoid them."

"We have pointed out mistakes of the past and now admit that they have been repeated," Winch said.

German Paper Claims Unrest In Netherlands

BERLIN (Via Amsterdam), Nov. 15.—In a violent attack on The Netherlands the Nazi organ *Mittag* of Düsseldorf last night said unrest was widespread in Holland and that a large section of The Netherlands people was demanding "a radical change in the system" of government.

As a remedy for "the state of crisis" now existing in The Netherlands, the German newspaper suggested the government be turned over to The Netherlands Nazis headed by A. A. Mussert of the "National Front" headed by Arnold Meyer.

BRUSSELS, Nov. 15.—Invasion of The Netherlands by German troops must result in Belgium entry into the war unless this country has decided upon suicide.

In a letter to the *Liberal* newspaper, M. Joris said that the "Our immediate intervention would nullify Belgium's defence and make its neutrality a farce."

"The entry of German troops in the Netherlands territory must lead to a fact into the Dutch unless we have decided upon suicide," he wrote.

"Our immediate intervention would nullify Belgium's defence and make its neutrality a farce."

R.A.F. FLIERS GET PICTURES OF ENEMY PORTS

Photos Of 16 German Airports Taken On Reconnaissance Flights

LONDON, Nov. 15.—Reconnaissance flights over Germany to photographing of military objectives were described today.

Men on such flights in the past several weeks have returned with photographs of 16 enemy airbases and of the well-defended ports of Emden and Hamburg, it was said.

Many towns, harbors and military objectives were photographed on several occasions on a number of flights.

The reconnaissance flights were described as having been successful in reaching objectives and securing photographs and the information required.

More than 100 photographs showing enemy military objectives in considerable detail were brought back in a single flight. During another reconnaissance flight in which an enemy airbase was the objective, a British bomber force succeeded in reaching objectives and securing photographs and the information required.

The total distance flown on the raids was said to be 800 miles, of which nearly half was over the North Sea and the remainder over German territory.

The reconnaissance flights were described as having been successful in reaching objectives and securing photographs and the information required.

Night Life of London Practically Ceases to Exist Since War Start

By GUY E. RHODES
Canadian Press Staff Writer

LONDON, Nov. 15.—This town's night life practically has ceased to exist since the war started.

Blackout restrictions have made travel through the streets perilous and except on moonlight nights.

Taxis are not as plentiful as they used to be. There are few frequent and most places of entertainment are under some sort of restriction.

PUB OWNERS HIT
Under the new regulations in London, pub owners are hit hard.

Pub owners complain bitterly that the rule of trade which was imposed in the early days of the war has been made more stringent.

After a while, however, the strain of making their way through the dark streets to get to home, said they stayed at home. The same can be said of many other people.

ASK FOR REVISION
The London authorities are asking for revision of the staggered closing rule and that all houses be allowed to remain open regular hours. Some are asking they be allowed to open.

Two Wives See Mate Sentenced In Bigamy Case

VISALIA, Calif., Nov. 15.—Two first wives today saw their bigamy husband, Melvin Douglas Threlk, and Melvin Douglas Threlk, his two wives, sentenced to prison.

The children are British, said Stephens, four, three and Maynard, 16 months.

Mrs. Taylor said she was living alone when she met Threlk. She had been married to a man named Threlk, but he had been living with her for some time.

Mrs. Taylor said she was living alone when she met Threlk. She had been married to a man named Threlk, but he had been living with her for some time.

BRITISH SINK GERMAN U-BOAT LAST THURSDAY

OPORTO, Portugal, Nov. 15.—The captain of a Norwegian freighter reported Tuesday that British warships apparently sank a German submarine last Thursday after the U-boat halted his ship and forced him to hand over a supply of food stuff.

Captain Peter Sorenson of the 4,000-ton freighter Jenny said the submarine stopped his ship while he was on route from Glasgow to Oporto to take on a cargo for Great Britain.

After taking on several bags of potatoes, dried fish, sugar and bread, which he said the submarine commander demanded on a threat to torpedo the ship, Sorenson said the U-boat disappeared.

A few minutes later, he related, several British motor-warships appeared and began firing depth charges. The skipper added that oil slick appeared on the surface.

Months of Planning Are Entailed in Providing New Shopping Centre

Months of planning created western Canada's most modern shopping centre, the new Hudson's Bay store, bringing to Edmonton shopping facilities never enjoyed before, facilities which enable patrons to shop with less effort.

To achieve this, plans were laid to create a structure simple in design which would give patrons free access to wall fixtures, which would provide high counters to enable them to move clearly over the merchandise offered, and to provide them with a lighting system that would enable them to see the merchandise in its true colors without distortion or blurring.

The color scheme of the store was designed for brightness and cheerfulness. In all departments walls are colored in dainty pastel shades. The fixtures are of quartered oak while oak with American figure gum wood trim, which with their delightful glass fittings and indirect fluorescent lighting makes a dazzling display.

A feature of the store's interior is the symmetry of the display which enables a customer to stand at any point in the store and by just glancing around find the department it is intended to visit. This is made easy by the system of leading signs on the walls, the location of the different departments.

Approximately 133,000 cubic feet of heating air circulates through the store through its air-conditioning plant. This air is completely changed in the store every 12 to 15 minutes and constantly kept at the proper humidity. The air is heated through a system that results in a comfortable shopping atmosphere. All this is taken from the air.

Sikorski Says

Allies Will Win

LONDON, Nov. 15.—General Wladislaw Sikorski, premier of the Polish government in exile, expressed confidence today that the Allies would win the war and that their victory "will bring Poland back to life again as a free nation."

Sikorski, came from these words: "I am confident that the Polish government in exile will continue to lead the Polish people with high British efficiency."

Chancellor Neville Chamberlain in London in December and Sweden during recent times.

Chairman

P. A. CHESTER

Chairman of the Hudson's Bay Company, whose new Edmonton store was opened Tuesday, marking a new forward step in the history of the company in this city.

GERMAN BOMBS FEEL CLOSE TO SCHOOLHOUSE

LONDON, Nov. 15.—Four German airplanes which raided the Shetland Islands Monday dropped 500-pound bombs a quarter mile from a schoolhouse, the information ministry revealed today.

A total of at least 12 of the big missiles were dropped at various points. One seven-pound shrapnel fragment struck a small house. Four of the bombs fell into the sea and exploded harmlessly. The other three fell close together on the shore, and another four about half a mile inland at the summit of a small hill.

According to one eyewitness, the missiles dropped into the water were torpedoes such as are used by some types of planes for attacks on vessels at sea.

HUMIDORS KEEP TOBACCO FRESH IN SHOW CASES

Show cases in the tobacco department of the Hudson's Bay Company new store all carry the very latest in humidifying equipment, and in addition all show cases are insulated with rubber to ensure the smoking freshness of tobacco to patrons.

All show cases are built with windows equipped with slot spring hinges which immediately close the door automatically directly a customer has been served. At the rear of the show cases space is provided for the reserve cigs carried in the department.

A specialty is made of imported tobaccos in addition to a full line of domestic and American brand cigarettes.

Also carried in this department is a full line of smokers' supplies, including pipes, tobacco pouches, cigar trays, etc.

Flower Shop Is Newest Trend In Store's Service

Latest addition to the magnificent shopping service supplied the purchasing public of Edmonton and district in the Hudson's Bay Company's new store is an up-to-the-minute flower shop where every type of flower in season and out of season can be seen on display.

Magnificent show cases display cut flowers. The cases are manned with the last word in refrigeration which ensures that the flowers are kept fresh and dainty.

As well as the cut flowers a large range of potted plants are kept on display, as well as a host of artificial flowers.

A staff of experts are employed in this department to create corsages, wedding bouquets, table displays, and the hundred-and-one other beauty uses to which flowers are put.

Canadian R.A.F. Member Is Dead

MONTREAL, Nov. 15.—Mr. and Mrs. H. J. Hammond of Montreal were advised Monday by cable from the British air ministry of the death of their son, Flight Lieutenant Wilson Hammond, 28, in an "aircraft accident" in England.

Wilson, who joined the Royal Air Force in 1935 and served in Egypt, Iraq and Singapore.

England now consumes 80,000,000 gallons more of milk annually than it did four years ago.

Your Children's Shoes will be X-RAY fitted at the Bay's Shoe Department on Street Floor

HEWETSON'S at BRAMPTON, ONT.

HBC HEWETSON Shoes for Growing Girls They're Made Stronger To Wear Longer

All Hewetson Shoes are moderately priced, built on scientific lasts to safeguard the feet of growing girls, sound Canadian workmanship and honest value. "They are made stronger to wear longer," so they are a real economy in shoe-bills as well as doctor-bills. Ask for Hewetson Shoes by name in The Hudson's Bay Company Shoe Department.

HBC TRAMP - TRAMP - TRAMP

... up and down, back and forth pounding the life out of your rugs. Grinding dirt and grit into the fabric of the rugs. Beating down the pile into a stiff lifeless mass. Cutting off the pile, leaving worn spots. Dirt clinging to the fibres, and through the back. Tramp, Tramp, Tramp the dirt into your rugs.

Now a preventative for all of this—thick wool felt fibre pads. Protection to your rugs and luxurious to walk upon. Your rugs last years longer and their beauty is enhanced. Dirt and grit just can't stick . . . pile does not become matted! See it at the BAY tomorrow!

Hudson's Bay Completes Chapter In Destiny Here

\$1,000,000 Store Houses Trade of World Under Roof

The making of history is endless and The Governor and Company of Adventurers of England trading into Hudson's Bay—The Hudson's Bay Company—completed another chapter Tuesday in its Edmonton destiny.

Tuesday evening the magnificent million dollar structure of concrete and stone—an institution national in character, universal in service, a street of shops with the commerce of the world under one roof—was officially opened by Mayor John W. Fry, and high executives of the Hudson's Bay Company welcomed the public of Edmonton and district to participate with them in the formal dedication of this monument to their confidence in Edmonton's future, the result of the Company's ancient trading policy, "a fair deal" and its traditional leadership.

The Hudson's Bay Company in its stride of development has every confidence in the progress of Edmonton—that confidence is expressed in the building of this Million Dollar store—bringing to Edmonton citizens and its customers far afield in the surrounding territory a comfortable centre in which to shop for their every need with confidence in value and satisfaction.

CONSTRUCTION RECORD
A construction record was established when two sections of the new store were open and in full swing for the 1939 Christmas gift buying season, this work being completed six weeks ahead of schedule.

Many months of planning by busy minds and hands created Western Canada's most modern department store, bringing in Northern Alberta and the North West Territories shopping facilities such as never enjoyed before.

Close to ten months of preparation, devising and working drawings employed the time of a staff of architects and draftsmen, as well as principals in the trade. The story of the construction of this new store is a narrative of genius in organization and unerring progress, brought about by skilled planning and execution. Unlike most construction jobs, the erection of the store had to be done in three separate sections, first, because the new building had to replace the old one on the same site; second, because business had to be carried on as usual.

BUSINESS CARRIED ON
An outstanding feature of this vast project was that not a single business hour was lost throughout the year-and-a-half of construction. As units were completed departments were moved, some overnight, some on Wednesday afternoons and were ready for trade in the new section of the building the next morning. Incidentally, there was no Sunday work entailed in any of these moves.

Tunnel-like bridges were installed to give the shopping public access to the merchandising sections in the old store, linking the new with the old. To all appearances, inside the store, the enormous building demolition was practically unnoticed, except for the false walls and a somewhat congested ceiling area.

Handsome, dignified the Company's new store occupies a full block on Jasper avenue, Edmonton's main thoroughfare. Richly patterned Tyndal stone contrasts smartly with columns of jet black basaltic granite. Balm-finish, stainless steel roof reflects the glow of modernity. Window panes are replaced with glass brick, permitting daylight, diffusing the sun's rays, eliminating dust entry and drafts. The air within is cleaned, purified and completely changed every seven minutes.

Emergency heating and lighting plants are in readiness should the regular system momentarily cease. Quietly operating escalators swiftly carry the customer from one floor to the other, illumination throughout is scientifically designed, enhances the interior and is restful to the eye.

COMFORTABLE LOUNGES
Deeply upholstered and inviting lounges make a cheery rendezvous for patrons. Specious stairways, glass-enclosed counters, carpeted floors, sanitary wash rooms, wide aisles, helpful directed paths, and a host of other energy-saving conveniences have been installed in this magnificent merchandising centre.

The finest and most modern fire-resisting system known in

Rest Rooms Are Second to None
Rest and wash room facilities second to none are provided for men and women patrons. These facilities are located at convenient points throughout the store and are equipped with the most modern and scientific appointments, including electric dryers, all metal partitions and tile finish.

Particular Attention Given to Refrigeration
In planning the 1,000-and-one consuming public in the perfection of structure details of the new million dollar Hudson's Bay company store particular attention was given to refrigeration system to ensure meat, fish, poultry, vegetables and perishable foodstuffs, passing to the

duces, not only the correct temperature, but also the right humidity to keep foods in the proper state of preservation. Each refrigeration system is a separate unit, making it possible to graduate temperature to meet the requirements of the foodstuffs being stored in them. This enables the Hudson's Bay company to handle the most delicate of food merchandise and deliver it to Edmonton and district tables without the slightest

Escalators Carry 6,000 Each Hour
The safest and most up-to-date, modern system of carrying 6,000 people an hour have been installed to convey patrons from the street floor to the second story in the new Hudson's Bay company store. Freight elevators, equipped with motorized doors carry merchandise from warehouse storage to store showrooms. Every possible safety device known is incorporated in the elevator system.

In playing cards, the various suits originally were meant to designate the quality (spades, the deuce, hearts, the ace, clubs, and the citizens (diamonds).

EDMONTON LABOR RICHER THROUGH H. B. C. BUILDING

Hundreds of thousands of dollars passed through the hands of contractors to Edmonton labor during the construction of the Hudson's Bay company new million dollar store.

General contractors on the work was the firm of Messrs. Bennett and White, while E. Kelly and Co. had the contract for the plumbing, heating and ventilating. Plastering of the building was done by Thomas Flynn, old-time Edmonton plasterer, while the electrical equipment was installed by the Sunley Electric.

Refrigeration service was installed by the Frigidaire Company through their local agent, Bruce Robinson Electric Ltd., and ornamental metal work was supplied by the Dominion Bronze and Iron Co. Ltd., Winnipeg.

Stone masonry iron work contract was let to the Standard Iron Works Ltd., while Pilkington's Ltd. were entrusted with the plate glass and mirrors contract. Roofing and sheet metal contract went to the Western Steel Products Ltd. and the terrazzo, tile and masonry work to Hingley Co. Ltd., Edmonton.

New System Is Employed For Store Heating

Heating in the new Hudson's Bay company store introduces the new ventilating duct system instead of the old system of using hundreds of radiators throughout the store. This new plant distributes the heat evenly and is more readily controlled, enabling the company's engineers to meet temperature requirements to the last degree.

The system is so arranged that localities in the store exposed to winter blasts are kept comfortable by ingenious automatic booster heating coils, producing additional heat where necessary. Gas is used for fuel, but oil burners are kept in readiness to be switched over in case of emergency.

Lord Nuffield Supplements His Gift For Soldiers

EDMONTON, Nov. 15.—Lord Nuffield, automobile manufacturer and philanthropist, has supplemented his £1,500,000 (\$6,750,000) gift to buy recreational equipment for men in the military services by another £50,000. It was learned Tuesday.

The original gift was in the form of 1,000,000 ordinary shares of Lord Nuffield's firm, Morris Motors Ltd. The interest is to be used for the recreational fund as it is collected.

The latest gift is in cash to enable the military services to begin building up their recreational facilities at once without waiting for the first dividends from the endowment fund. It was offered last Thursday in a letter from Lord Nuffield to War Secretary Horne-Belsham.

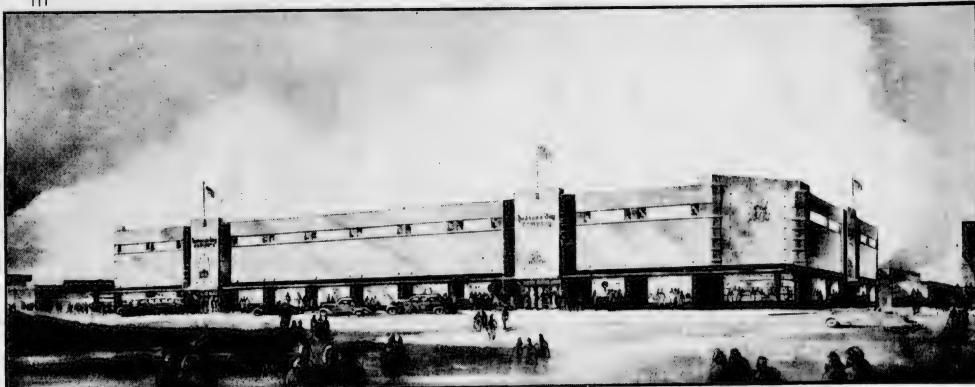

part of the store's equipment. More than a thousand individual sprinklers are located throughout the establishment. Thousands of gallons of water can be unleashed within a matter of seconds if a fire should start. Each sprinkler is connected to an alarm in the building as well as with one in the city fire department.

An entrancing array of color plays a leading role in the scheme of interior decoration. Velvet, creamy, sky blue, delicate pinks, tones of cream, inviting burgundies, enchanting greens and a profusion of other enchanting hues blend in a symphony of beauty and design.

From Alberta and the dominion's supply sources come the best materials to be moulded into the stately replica of old Fort Edmonton by the men of many trades who resided, at the peak of the construction period, a payroll of \$6000 weekly.

Spacious Beauty Salon Has Smart Appointments

Operators Expert In Treatment For Lady's Loveliness

The Hudson's Bay Beauty Salon—a salon decorated in the smartest of color schemes, spacious and charming, in which operators skilled in the beauty treatment so essential to the loveliness of the modern woman—is one of the hundreds of services that is provided in the new Million Dollar Store.

Situated in the north-east corner of the second floor, the salon is under the management of Mrs. Gertrude McNeill, who has taken several courses in beauty culture, hair dressing and styling and has the expert training upon which the success of a salon depends.

All of the girls employed in the Hudson's Bay Beauty Salon are fully trained and are expert operators with years of experience in hair dressing, styling, facials, manicuring, dyeing, permanent—In fact every branch of the business, so that customers are assured of the most expert attention.

PASTEL SHADES

Color scheme of the parlor is done in ten with pastel green and black with chrome accents. A beautifully furnished reception room is enclosed by a wide arch, flanked on either side with modernistic columns, in which the famous Paralytic comedies, used exclusively in the Hudson's Bay Beauty Salon, are displayed.

Mrs. McNeill's desk which is modern in its styling, is in black and chrome with a silver chair, a silver stool, and is situated to the right of the reception room.

Around the room are eight manicure tables at which several capable girls are working. A private room is preferred a private room may be taken into a booth and the manicure done in privacy. The lady or gentleman in having a haircut or shampoo, etc.

A large, full-length one-colored mirror, ideal for the "last-minute check" before the lady goes into the rest of the store, shows ladylike that skirts are even, stockings straight and hats on at the right angle.

Special partitions give complete privacy in the barber shop, where three customers may be given a shave simultaneously.

Each of the barbers is equipped with a sterilizer for combs and brushes, and a roomy compartment for laundry gives a lady appearance to the establishment.

There are seven chairs for regular hair dressing, one for facial, a drying room where eleven driers may be attached at once and customers may sit in a comfortable chair and adjust the heat to suit the personal taste.

A permanent waiting room is another feature of the new salon and is now made up of ten or twelve chairs in which customers may wait.

For Fresh Linen A laundry fully equipped with electric ironing, pressing and dyeing machines is situated in the rear of the salon. In order to maintain the highest standards of cleanliness, the laundry is situated in the rear of the salon, away from the customers.

Feature of the plumbing fixtures is the color scheme of the bath. The basins each have an indentation in the front allowing the neck to rest easily while a ridge near the bottom prevents the water from splashing up on the customer. Each of the basins is about eight feet by twelve, and they are airy and bright, fully air-conditioned, they are lighted by huge 1000 watt bulbs in indirect fixtures, which give a steady, clear but soft illumination.

In the facial room there is another remarkable feature, an extremely distinctive. The operator after a facial will make the customer up with her own cosmetics, or will use the Paralytic in some cases, and the operator will always be ready for an emergency.

The Hudson's Bay Beauty Salon has the reputation of being the best of its kind in the city, and it is a pleasure to have such a high standard of service in the new Million Dollar Store.

Music Chords NORTHCOLE, Nov. 15.—While all around a beautiful ball, Dr. Martin Sargent, conducting an orchestra here, carried on, and continued frightened women in the audience.

Without Addresses DELHI, India, Nov. 15.—The new Indian Army last will omit the use of uniforms and may be issued in a uniform for the general public, and one for military authorities only.

H.B.C. Cavalcade In Edmonton City

1594—Old Fort Edmonton and Old Fort Augustus founded by Hudson's Bay Company and North West Fur Company at the mouth of the Sturgeon River, 25 miles below the present site of Edmonton. William Tomlinson was the factor.

1607—Old Fort Edmonton and Old Fort Augustus destroyed by Blood Indians.

1608—New Fort Edmonton and New Fort Augustus built on present site of Edmonton City.

1610—Old Fort Edmonton and Old Fort Augustus abandoned for nearly 123 miles down the Saskatchewan River. New Fort called White Earth House.

1619—Fort Edmonton re-established.

1624—Chief Factor John Rowand placed in charge and built an elaborate fort with stockade 50 feet high, with bastions and cannon. Chief Factor's house known as "Rowand's Folly"—largest establishment west of York Factory.

1641—Sir George Simpson visited Edmonton—welcomed by eight Blackfoot Chiefs, who implored him to "grant that their horses should be fed, that the people might live and always look young."

1648—Paul Kane, famous commercial artist, visits fort and paints beautiful half-breed girl—Cunewabun, "the girl who looks at the stars."

1650—35—Capt. John Palliser and James Hector, of Palliser expedition, visit Edmonton for guide to cross the Rocky Mountains in search of a railway pass. Lord Southesk visits Edmonton on hunting trip to Rocky Mountains.

1656-61—Lord Milnor and Dr. Chadwick visit Edmonton on way to Caribou for Royal Geographical Society.

1671—Rev. George McDougall, Methodist missionary, builds mission on site of present McDougall Park.

1672—Sandford Fleming, C.E. Principal Grant, John Macoun and Morley reach Edmonton on first trans-continental railway train, via Yellowhead Pass.

1674—Mail service established with Fort Garry.

1684—Frank Oliver establishes little giant of a newspaper—The Bulletin.

1685—Haidwreeds and Indians rebellion, breaks out in North West. Edmonton gets first remembrance of Indian war days of the past.

1686—First Hudson's Bay store built on corner of Fraser and Jasper avenues.

1691—C.P.R. reaches North Saskatchewan River, opposite Edmonton.

1692—Town of Edmonton incorporated—May 1901.

1694—Hudson's Bay store built on present site, 103 Street and Jasper Avenue.

1695—Edmonton fills with thousands of gold-seekers bound for the Klondike.

1696—Edmonton incorporated as city—William Short, first city mayor.

1698—Edmonton capital of Alberta, Inauguration Day, September 1, 1905. First brick store completed by Hudson's Bay Company.

1699—Edmonton and Strathcona, rival cities, unite as Greater Edmonton.

1700—Additional building added to Hudson's Bay Store, 103 Street and Jasper Avenue. Six story building added on 103rd Street. Five story warehouse built.

1701—Old Fort Edmonton removed to make way for Alberta's parliament buildings.

1702—One story extension to 102 Street giving the Hudson's Bay Company a continuous frontage on Jasper Avenue between 102nd Street and 102nd Street.

1703—Hudson's Bay Company release to public plans and architects' drawings for one million dollar store.

Excavation gets under way. April 4th—steam shovel dig in Western Canada's most modern store opens its first section in September. Second section opened to public in December.

1704—Grand Formal Opening of new Million-Dollar Store, November 15, 1939.

Fort Edmonton Takes Its Name From Old Saxon

When Old Fort Edmonton and Old Fort Augustus was founded by the Hudson's Bay Company and the North West Fur Company in 1594 the founders went to England for the name Edmonton.

According to the records on file in the British Museum this name and place in England dates back to 760 A.D. being originally known as Eadmontuna, which is believed to be the Latinized form of the Saxon word meaning "Happy Helmet."

Since the year 1112, Edmonton, England, has seen the following variations in its name—Aedmontun, Eadmontun, Edimontun, Edimontun, E d e m o n t u n, Edimontun, Edimontun.

Edmonton, Alberta, may well be proud of her name. As a name of that other Edmonton, 6,000 miles away, it shines in a reflected glory which goes back 1145 years.

Ban Neutral Trade In Palestine JERUSALEM, Nov. 15.—British war chemicals industry is booming.

Palestine works on the dead sea have been expanded. The increasing demand in Great Britain and France. They produce chlorine, sodium, potassium, iron, and magnesium salts used in explosives.

New chemical processes are being used under the direction of Dr. Chaim Weizmann, former president of the Jewish Agency for Palestine. Re-products are being converted into acetone used in manufacture of certain munitions.

Dr. Weizmann, one of the world's foremost authorities on chemistry, served as director of admiralty laboratories during the first Great War.

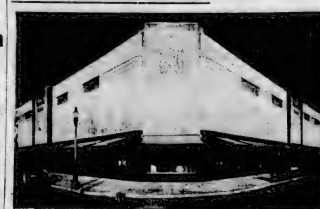

Church In Support WASHINGTON, Nov. 15.—"Loyal support to the chosen leaders of the country" is the first duty of the church, said Bishop J. S. Hart at a diocesan gathering here.

One section of New York City has a "royalty" which lends to children free of charge after the manner of the free libraries.

Archaeology HULL, Eng. Nov. 15.—Digging for landings near here workers found several human skeletons and a pottery vessel, all later identified as remains of the Bronze Age.

Travelled Plenty SYDNEY, Australia, Nov. 15.—Frank Lamoro has made the Australia-London sea voyage 32 times as interpreter on a liner, so he has decided to stop travelling and settle in Sydney. He is an Italian by birth.

Written In Stone

Shown above is a view of one of the bevelled corners of the Hudson's Bay Company's handsome new store on which is engraved in stone the company's coat-of-arms, finished in natural color. Inscriptions, lined with gold leaf, tell of the granting of the company's charter from Charles II of England in 1670, and of the establishment of Fort Edmonton in 1785.

SHOES GIVEN DOCTOR'S CARE IN BAY CLINIC

New Service Given in Only Repair Shop of Type Here

Amongst the up-to-the-minute exclusive services given by the Hudson's Bay Company to its customers is the shoe clinic in the new building. It is the only shoe clinic of its kind in Edmonton. Here sick-looking, worn shoes are made brand new again. Large shoes made smaller; long shoes made shorter; wide shoes narrower.

Here shoes are adjusted to eliminate slipping at the heel, cutting at the instep—in fact as a guarantee often needs alteration for comfortable fitting, so the Bay Shoe Clinic can give you a pair of shoes that fit comfortably.

There is nothing in shoe repairing that this clinic is not equipped to do expertly. Shoes are resoled in the factory way. They are placed on factory lasts while the work is being done, which enables the skilled operator to completely reshape the shoe and give them that factory finish which makes them look like new.

Amongst the expert services given in the clinic are the resoling of shoes to eliminate slipping and slipping; dyeing of shoes any color; or mending shoes, including the new fashion for shoes, shoes made silver or gold; heels attached in a jiffy, repairs made while you wait, a shoe shoe shop at which there is no waiting.

A pickup and delivery service is maintained at no extra charge. In this clinic for sick-looking shoes surges that are discolored or faded can be refinished and recolored and the nap brought up to give them the appearance of new.

The clinic is equipped with individual compartments where the customer can relax reading a favorite magazine while the skilled shoe mender makes necessary repairs.

If your shoes point of wear, if they need repairs, you can obtain the most modern repair methods applied by skilled workmen at the Bay Shoe Clinic.

Food Merchandising Centre Is Excellently Equipped

Grocery And Meat Departments Give Customer Service

Rated as one of the most up-to-date food merchandising stores of its kind in Canada, the service grocery, grocereria and meat departments of the Hudson's Bay Company's new million dollar store are located in the east end of the basement of the store.

Indirect lighting, and white walls, ceiling, show cases and other fixtures give a clean, fresh atmosphere to the grocery and meat departments. Plain black lettering on the walls or on signboards indicate foods sold at the different counters.

The meat and fish departments occupy the east wall of the basement. A long counter, consisting of three 15-foot refrigerated show cases, displays poultry and cuts of fresh meats. In the same line two show cases display fish, both fresh and of the smoked variety.

The rear sliding doors in the cases have been made so they can be easily removed for quicker service during the rush hours. All foods displayed in this department are kept at a temperature of from 35 to 40 degrees.

WALK-IN COOLERS

At the back there are three large walk-in coolers used to store additional supplies of meats. In these are hung the beef and other carcasses of the famous Red Ribbon brand of meat which has made the Hudson's Bay company meat department justly famous throughout Edmonton and district.

Also situated at the rear of the coolers and sausage rooms is ample storage and parceling space. Telephone orders for the grocery and meat departments are received in a sound-proof telephone room in the storage section at the rear of the department. As many as six operators, during the rush period, take the orders. A large blackboard, on the wall of the telephone room, lists the current prices of vegetables, fruits, etc.

The fruit and vegetable departments adjoining the meat departments. It is equipped with a modern type fruit cooler for storing apples, oranges and similar fruit and a moist air fruit cooler for storing of celery, lettuce, etc.

DELICATESSEN

Near the fruit and vegetable department in front of the meat counter, is the delicatessen square, consisting of three refrigerated display cases in which are cooked and ready to serve meats, bacon, along with butter, eggs, pickles and the various lines of imported and domestic cheeses, which the store makes a specialty.

In the service grocery, chairs and two tables are provided for the convenience of customers while giving orders to the clerks. Here are displayed the more fancy lines of foodstuffs. Deliveries here and in the meat department are made twice daily—at 9 a.m. and 1:30 p.m.

A coffee-grinding stall with the coffee beans displayed behind glass is a smart addition to the service grocery department. Here a coffee machine grinds the coffee for vacuum pot, drip pot, percolator or open pot, indicated on an illuminated dial.

The grocereria has three cash desks. Canned and bottled goods are displayed on wall shelves, and other foodstuffs are on modern display shelves arranged in rows along the floor. Each display shelf contains one type of foodstuff. This numerical system aids clerks in directing customers in the grocereria.

A food consultant is another feature of these departments. She is a qualified dietitian who will assist you in planning of meals, teas, parties and bridges who will advise you on vitamins and calories and will shop for you if you desire.

Coming to Canada

Britain's Air Chief Marshal Sir Robert Brooke-Popham is coming to Canada to assist the Royal Air Force mission already here preparing to get the huge Empire pilot-training undertaking under way.

FIRST PARCEL SENT CANADIAN WAR PRISONER

TORONTO, Nov. 15.—Clothing and other necessities have been forwarded to Pilot Officer Burke Thompson of Peenlangishu, Ont., who was shot down and imprisoned during a Royal Air Force raid on Wilhelmshaven. It was announced last night by the Canadian Red Cross Society.

Completion of the first shipment to be sent to a Canadian prisoner-of-war in Germany was related in a cable received from Mr. Hon. R. B. Bennett, chairman of the British committee of the society. Mr. Bennett added that no exchange of prisoners has been arranged yet between British and German authorities.

During the first Great War six parcels of clothing, cigarettes, and magazines were sent to every Canadian prisoner in Germany, totaling 300,256 parcels.

New Method
MELBOURNE, Aus., Nov. 15.—Because 65 per cent of his income goes to Uncle Sam's treasury, D. A. Hamburger, a millionaire visiting here says he invests only in stocks that do not pay dividends.

TRAINLOADS OF MATERIALS IN NEWEST STORE

Building Supplies Provided By Alberta and Canadian Sources

By the trainloads materials were brought from all parts of Alberta and Canada, and some from beyond the area to be incorporated in the new Hudson's Bay store. It was the policy of the company that where possible materials were purchased first in Alberta, then in Canada.

Here are the statistics of material and trade classifications employed in the erection of the store: 30 carloads of reinforcing steel; 12 carloads of stone and granite; 48 carloads of brick and tile; 42 carloads of lumber; 20 carloads of sand; 87 carloads of gravel; 87 carloads of cement; 11 carloads of selling fixtures; 8 carloads of roofing; 4 carloads of cork; 2 carloads of lime; 1 carload of overhead doors; 1 carload of glazed tile (18,500 pieces).

Three carloads of ornamental steel and concrete; 10 carloads of travertine and marble; 41,548 common bricks; 14,000 fire bricks; 1,800 electrical wires; 6,000 feet of under-floor duct; 37,000 feet of electrical wire; 3,000 pieces of glass brick; 300 kegs of nails (500,000 lbs.); 50,000 pieces of terra-cotta tile; 2,000 spandrel heads; 13,000 square feet of carpet; 27,000 square feet of linoleum; 3,000 square feet of display window glass; 7,000 feet of refrigeration (new type equipment); 50,000 feet of terrazzo floor; 60,000 pounds of miscellaneous iron, and gallons of paint.

Men of the following building trades were employed: carpenters, waterproofing, sheet metal work, masonry, concrete forms, structural steel, gypsum lath, clay tile, marble and tile, hardware, elevators, sprinklers, plumbing, architectural metal work, shoring, stone, mill work, masonry.

Brick, metal lath, plastering, roofing, painting, glazing, elevators, terrazzo, heating, signal system, concrete work, gravel, stone paving, finished carpentry, conveyors and shutters, air-conditioning, reinforced steel, insulation, outdoor signs, electrical, refrigeration, miscellaneous iron, sidewalks and paving and the alarm system.

CHURCHILL MAY HAVE PET FISH ON HIS HANDS

LONDON, Nov. 15.—Should the be bombed severely, Winston Churchill, First Lord of the Admiralty, may have 10,000 tropical fish on his hands.

He has offered to billet that number of pets belonging to a London fish expert, Stanley Plater. Plater said today that in the event of a raid the fish would be taken to Mr. Churchill's country home in Chartwell, Kent, where the statesman has seven lakes full of all kinds of fish.

Plater revealed that the First Lord spends much spare time with his fish, "calls some of them by name, and feeds and tends them himself."

Check Potatoes

CARLETON PLACE, Nov. 15.—Potatoes don't need a pedigree, but all "tubers" entering the Union here must have a certificate showing they are not diseased and have not been grown near diseased crops.

Melba Memorial
SYDNEY, Aus., Nov. 15.—Lord Lurgan, Irish baritone touring Australia, has offered the earnings of his tour for a fitting memorial to Sydney's late Dame Nellie Melba, Australian singer.

Magnificent Retail Store Shows Architectural Advance

The new department store of the Hudson's Bay Company, Limited, officially opened to Edmonton citizens tonight by Mayor John W. Fry, incorporates all the results of research into modern building structure and retail store layout. Having pride in its long association with the city of Edmonton, the company believes that citizens here will find genuine satisfaction in this practical expression of confidence in the future of Alberta's capital.

INDIANS RAZE EARLIEST FORT OF EDMONTON

Poals on Site of Present City Were Erected In 1808

In 1751 old Fort Edmonton and Old Fort Augustus were founded by the Hudson's Bay Company and the North West Fur Company at the mouth of the Saskatchewan river, 25 miles below the present site of Edmonton.

These forts were destroyed by the Black Indians in 1807, and were replaced in 1808 by New Fort Edmonton and New Fort Augustus built on the present site of Edmonton. Two years later they were abandoned and a new fort called White Earth House was built 125 miles down the Saskatchewan river. In 1810, however, Fort Edmonton was re-established.

In 1825 Chief Factor John Rowand was placed in charge of Fort Edmonton and it quickly became known as the most dominant establishment in the Saskatchewan river district.

The fort was built high on the left bank of the Saskatchewan river. It was hexagonal, with bastions on the corners. Its 25-foot palisade, bastions, flagstaff and great slatted gates gave it a martial appearance. The walls enclosed an area of 320 acres, with workshops, warehouses, resident store and stables. Within the white palisades lived 150 persons under the command of the chief factor. It was a great supply depot, and the country was rich with buffalo.

Fort Edmonton was more than just a trading post. York boats were built there; vast quantities of pemmican were prepared and packed in leather sacks for the Rocky Mountain and Mackenzie river brigades.

On land adjacent to the Fort wheat, barley and vegetables were raised, and the breeding of pack-horses carried on. In 1915 the old fort was removed to make way for the present Alberta parliament buildings.

Don Wilson's Wife Is Given Divorce

LOS ANGELES, Nov. 14.—Charles, who was silent and indifferent at home, Larry Jayne Wilson won a divorce and division of community property worth \$50,000 Monday. Wilson, whom she married in 1927, agreed to pay one-quarter of his salary as alimony.

Canadian Arctic Region Supplies Richest Furs to World

Flag of Company Floats Over 225 Fur Trade Posts

The Hudson's Bay Company and magnificent furs are synonymous to people throughout the world. The great resources of Canada's Arctic regions have been explored by trappers to bring to the company the richest fur pelts in the land for the Canadian and European markets.

The flag of the company flies over 225 fur trade posts from Newfoundland to British Columbia, and from the Great Lakes to within 700 miles of the North Pole. Thirty of these posts are within the Arctic circle.

It is from these posts that the furs of the company are brought to the markets of the world. It is from these choice pelts that the fur garments of the fur department in the new million dollar store are made.

TRADITION CARRIED ON
In this department of the Edmonton store the tradition of the company is carried on in surroundings that delight.

To explore something of the atmosphere and coloring from the lands in which the priceless furs were garnered, the background of the store's department is of ice blue, which blends perfectly with the glamorous furs, which display the fur garments designed to meet the requirements of style and taste. This show room is stated to be the most up-to-date and finest in Canada.

All mirrors in the department are of bronzed glass which by its indirect lighting of the department is by indirect lighting. The department is lighted by the use of light lamps which enable patrons to see the furs without distortion of their color or sheen.

FITTING SPECIALIST
A specialist in fitting of fur garments is stationed in the department to advise customers on all changes necessary to garments, and also to skillfully remake fur garments.

This specialist will construct fur garments from fur trapped by company trappers, to the selected design of the patron.

The latest type fur storage with accommodation for approximately 2,000 garments is operated in conjunction with the department. Through this vault a continuous current of fresh furs and washed fur passes at a temperature sufficiently cold to ensure the destruction of all moths, eggs and larvae in the furs.

SMITE ANY NOTE CALL IT "SWING"

MONTREAL, Nov. 15.—To 13-year-old George Labadie—litterbug to the contrary—"swing is not music." Moreover, the former military musician and composer believes that "swing is liable to have harmful effects on children who want to learn the real beauty of music."

Labadie, who composed 10 military marches before failing eyesight ended 41 years of active playing recently, claims that "you can throw a handful of notes anywhere and that's swing." He argues that "you don't have to know a thing about music to play swing because you can hit any note and it goes."

Wittily stroking his battered but carefully tended comb-over—the biggest instrument in the band section of the band—Labadie said: "Real music is beautiful. Each note in a bar can be heard distinctly, whereas in swing the notes are as though they are crashing together and jumping out in a bulk."

Labadie believes that swing music is harmful to students of "real" music because it is "topical," and now and possibly is paying the real money."

SANDBAGS UP: SAND IS, TOO

LONDON, Nov. 15.—With a crisis, the price of sandbags in Britain goes up. And with the war, prices soar.

Sandbags which cost about five cents in June now cost eight to ten cents. Prices rose two shillings (44 cents) a hundred in the week before the declaration of war.

Much of the jump used to make sandbags comes from Calcutta and with the close of British Mediterranean shipping, cost of shipping increased, and private firms could no longer guarantee delivery.

Another factor was the demand of the government for all available bags. Authorities stress that the uncertainty of shipping and the government demand are not producing, were the primary cause of the rise.

Filler for the bags has also become more expensive, with sand rising from seven shillings (42.50) a ton to 10 shillings (62.50) a ton. Because sand cannot be obtained quickly enough, sandbags in many places are being filled with earth.

Watch Propaganda

DUBLIN, Nov. 15.—The government of Eire has taken powers to prohibit unlicensed import of papers and periodicals printed outside the state. Censorship of Irish papers has already been established.

Ancient Rome had a law which allowed a man to view a lawsuit after insulting another. He merely had to hand the injured man a sum of money equivalent to 25 cents to prevent him from taking the matter to court.

Where Patrons Were Served

Above is shown the Hudson's Bay Company block of stores, on the sunny side of Jasper Avenue between 102 and 103 streets, up to 1938 when the Canadian Committee decided that the future of Edmonton required a store of most modern design and equipment. This block, in which shoppers received the highest type of service for many years, now has been replaced by a million dollar structure in Tyndal stone and black Swedish granite.

Americans are Worried Over Branch Factories Located in Germany

By ANDRUE BERDING

Associated Press Staff Writer

WASHINGTON, Nov. 15.—Seven hundred million dollars of United States capital invested in huge American branch factories in Germany are helping Adolf Hitler carry on his war against Great Britain and France and are causing some uneasiness among high official here.

Eventually, the situation may lead to formation of a government policy against future establishment of American factories abroad.

The plants, branches of vast corporations like General Motors, Ford and National Cash Register, were constructed before the Nazis came to power. In 1933, a reliable authority estimates they were valued at \$200,000,000.

VALUATION DECLINES

Their valuation has greatly diminished since owing to numerous Nazi restrictions on operations and a prohibition against export of their profits to United States. Nevertheless, some of them are still tremendous plants employing thousands of workmen.

It is acknowledged American branch factories also exist in the countries fighting Germany and may be assisting these countries in procuring the war.

Feeling in official quarters, however, is not so strong on their account because they have not been forced to export to their countries in competition with their parent companies.

Before the war began, factories were thoroughly integrated into the German economic system and are now working, just as are German factories, in producing whatever materials are required for the purchase of the war.

HITLER USES PATENTS

Originally, the branches were established to supply the German and nearby markets, but the German economic authorities forced them to export to other countries so as to provide Germany with foreign currency. They began to export millions of dollars worth of products annually to Latin America.

Another factor enters the situation, that of American patents used by the branch factories in Germany. Hitler's war machine now makes use of them.

There is little the United States government can do about it, although possibility of retaliatory measures if Germany's control over the factories tightens much more is not to be entirely excluded. It is learned official quarters here have made an informal survey of German factories in United States.

Germany, Hitler's war machine now makes use of them.

Germany, Hitler's war machine now makes use of them.

There is little the United States government can do about it, although possibility of retaliatory measures if Germany's control over the factories tightens much more is not to be entirely excluded. It is learned official quarters here have made an informal survey of German factories in United States.

Germany, Hitler's war machine now makes use of them.

It's A Hard War FOR N. Y. POLICE

By ANDRUE BERDING

Associated Press Staff Writer

NEW YORK, Nov. 15.—The war is affecting life in New York but not to the eye of the tourist on Fifth Avenue. It is all behind the scenes.

New York's 1,000 police still about untripped but they're on emergency duty—only one day off in 27. Among the crowds a secret squad of 100 G-Men are on the alert for new espionage, sabotage and a dozen other wartime dangers.

In a hundred places, there are special guards. City and state police guard the vital reservoirs of the city's water supply against sabotage.

Officers are assigned at all the important public plants. Special 15-hour patrols guard the docks, bridges and tunnels that are such important arteries between Manhattan and Long Island and New Jersey.

Automotive engineers are depending more and more on the use of wind tunnels to determine characteristics of their new models. The use of the wind tunnels involves the sending of cars out on the road on long journeys.

Italy To Finish

PRETORIA, S. Africa, Nov. 15.—status, to be the national monument to the Voortrekkers, South African pioneers, has been cast here. First work of it is to be cast in the Union, it will be finished in Italy.
